

# DRYFT<sup>®</sup>

FROM NOW

# DRYFT®

## The world's first S-Motion Scrubber Dryer

Introducing DRYFT, a breakthrough in floor cleaning technology. With its patented ultra low profile head shape and groundbreaking **4200rpm Scrubbing Technology**, DRYFT delivers 100% floor cleaning coverage in half the time.

## Now you can clean 100% of the floor surface.

**Low profile.**  
We designed our own compact, low profile digital motor which allowed us to create the world's lowest profile scrubber dryer for cleaning underneath partitions as low as 5cm.

**Hard-to-reach areas.**  
DRYFT's patented head shape is the key to its limitless cleaning ability, efficiently cleaning around toilets in seconds.

**Corner cleaning.**  
Don't cut corners, DRYFT them. DRYFT will scrub and dry deep into corners, thanks to the chamfered edges on the cleaning head.

**s motion™**  
the way we clean

DRYFT is the world's first S-Motion™ Scrubber Dryer. DRYFT **cleans in widths of 160cm** whilst you **walk forward once**, in comparison to other scrubbers, that require the user to walk four times up and down to cover this same cleaning width. The result is **75% less walking** with DRYFT allowing the user to double their floor cleaning productivity.

**DRYFT cleans 100m² in just 3.9 minutes.**

**Floor Tracking Technology**  
DRYFT tracks and adjusts automatically to uneven floors, the SPYDR Chassis enables the brush pad and squeegee to adjust independently.

**Spin Handle**  
Keeps your upper hand stationary allowing the machine to rotate effortlessly.

**S-Handle**  
The ergonomically designed S-Handle enables the user to effortlessly guide the machine in the super fast S-Motion™.

**Simple Controls**  
Switch between smooth floor mode and rough floor mode at the press of a button.

**DRYFT Core-ion**  
Clean 24/7 with DRYFT Core-ion quick change battery technology, 1 Hour 15 minute runtime.

**Aluminium Chassis**  
Robust aluminium construction designed for commercial use.

**Service Pods™**  
Anybody can service DRYFT with our smart service pod design. Quickly and easily change all serviceable parts; suction motor, solenoid valve, PCB, squeegees and more.

**Magnetic Recovery Tank**  
Easy to clean and empty.

**Quick Fill Magnetic Tank**  
2.3 Litre clean water capacity.

**Ultimate Manoeuvrability**  
Forged aluminium torque transmitting ball joint.

**Smart Head Stand**  
Simply press the pedal to stand DRYFT upright.

**Transportation Wheels**  
Flip the head onto the transport wheels for easy transportation between cleaning areas.

**Magnetic Cleaning Pad**  
Featuring colour coding.

**Wall Protection Guide Wheels**  
Non marking soft rubber.

**Efficient Water Release**  
High performance cleaning with just water, thanks to 4200rpm scrubbing action.

**Quick Release Squeegee**  
Tool-free design for easy maintenance.
